

**MY G-WOW MODEL:** Use this template to create your own G-WOW model. See the [www.g-wow.org](http://www.g-wow.org) for ideas & help!

1. A cultural practice important to me : \_\_\_\_\_
2. What is the primary plant or animal species this practice relies on? \_\_\_\_\_  
✓ The habitat conditions needed for the sustainability of this species are:

\_\_\_\_\_

*2b. If this cultural practice does not rely on a key species:*

*What habitat or environmental conditions are needed for sustain the practice? (i.e.) snowmobiling relies on consistent deep snow.*

\_\_\_\_\_

3. What place-based evidence are you observing that suggests habitat conditions and sustainability of this species may be changing?  
\_\_\_\_\_
4. What does science indicate are current or projected changes in environmental variables (i.e. temperature, precipitation, storm events, high heat-drought) that could affect habitat conditions needed by this species?  
\_\_\_\_\_
5. Do culture and scientific evidence agree that climate change is now or projected to affect this species and therefore the cultural practice?  
\_\_\_\_\_
6. What service learning project or activity could you do to fight climate change with change?  
\_\_\_\_\_
